# VISHAL DHAVALI

## Java Backend Developer

Vardappa Galli Khasbhag Belagavi, Karnataka

+91 9164302294 | vishaldhavali2209@gmail.com | vishal-dhavali | vishaldhavali

## PROFILE SUMMARY

Computer Science Engineering graduate with proven ability to build and ship complete web applications using Java, Spring Boot, REST APIs, and MySQL. Published researcher in IJSREM (May 2025) with a peer-reviewed paper on AI-powered legal query resolution. Hands-on experience implementing user authentication systems, integrating relational databases via JDBC and Hibernate, and collaborating in Agile development environments. Actively targeting Junior Java Backend Developer roles where strong OOP fundamentals, problem-solving skills, and a drive for continuous learning create immediate value.

## EDUCATION

**PRESIDENCY UNIVERSITY** — **Sep 2022 – Jul 2025**
***COMPUTER SCIENCE AND ENGINEERING – CGPA – 8.31*** — ***Bangalore, Karnataka***

**MOTICHAND LENGADE BHARATESH POLYTECHNIC** — **Jun 2019 – Apr 2022**
***DIPLOMA (COMPUTER SCIENCE AND ENGINEERING) – Percentage – 79%*** — ***Belagavi, Karnataka***

## TECHNICAL SKILLS

- **Programming Languages:** Java (Primary), Python, C Language
- **Backend / Java Frameworks & Technologies:** Spring (IoC, MVC), Spring Boot, REST APIs, Maven, JDBC, Hibernate (basics)
- **Databases:** MySQL, SQL Queries, Database Design, DBMS
- **Web Technologies:** HTML5, CSS3, JavaScript, Responsive Web Design
- **Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Design Patterns, Agile Methodology, Software Development Life Cycle (SDLC)
- **Tools:** Git, GitHub, Postman, VS Code, IntelliJ IDEA, Eclipse
- **Operating Systems:** Windows, Linux (basic)

## PROJECTS & INTERNSHIP EXPERIENCE

### AI-Vakeel – AI-Powered Legal Assistant for Indian Law

*B.Tech Capstone Project | Research Published in IJSREM*

- Architected and deployed an AI-powered legal assistant using Python, Streamlit, LangChain, and Google Gemini to deliver contextual guidance on Indian Constitutional law, IPC/CrPC sections, and landmark case studies with auto-validated citations — reducing average legal query resolution effort significantly for end users. Engineered a FAISS vector database pipeline that performs semantic search across 50+ legal PDF documents, and built a custom SQLite-backed authentication system supporting multiple user sessions with persistent chat history. Research paper accepted and published in IJSREM (May 2025) — DOI: 10.55041/IJSREM48058.

### Currency Recognition System – Indian Currency Note Detector

*Diploma Final Year Project*

- Designed and deployed a real-time Indian currency note recognition web application using Python, Flask, OpenCV, and TensorFlow, enabling users to upload note images and receive classification results with confidence scores instantly. Engineered a modular 4-stage image preprocessing pipeline (DetectChars, DetectPlates, Preprocess, classification) and integrated a trained deep learning model with a responsive HTML5/CSS3/JavaScript drag-and-drop front-end interface.

### Web Application Developer Intern – Infynow Software Solutions LLP

- Delivered production-ready front-end UI components and a fully responsive landing page using HTML5, CSS3, and JavaScript, directly integrated into a live client-facing web application. Coordinated with senior developers across Agile sprint cycles, validated REST API endpoints via Postman, and maintained clean version history using Git — gaining hands-on exposure to real-world SDLC workflows and professional code review practices.

## ACHIEVEMENTS

- **Research Paper Published in IJSREM (May 2025)** – *"AI-Vakeel: An AI-Powered Platform for Smart Legal Query Resolution in the Indian Judiciary"* | DOI: 10.55041/IJSREM48058

## CERTIFICATIONS

- E-PRABESH (Computer Fundamentals) – National Board of Computer Education **Jan-Apr 2017**
- C Language Programming – Goodluck Computer **Jan-Mar 2021**
- Introduction to Supervised & Unsupervised Machine Learning – Simplilearn **Sep-Oct 2023**

## SOFT SKILLS

- Technical Troubleshooting | Problem Solving | Collaboration & Teamwork | Communication Skills

## HOBBIES & INTERESTS

- Reading Tech Blogs on Backend Architecture
- Building personal Java projects
- Vibe-coding
