PROFILE SUMMARY

Aspiring Java Developer with a strong foundation in object-oriented programming, web development, and databases. Skilled in Java, Python, HTML, CSS, JavaScript, and SQL, with practical experience in building projects such as an AI-powered stock analysis dashboard and currency detection system using ML. Adept at applying problem-solving and analytical skills to design efficient solutions and deliver high-quality applications. Complemented by hands-on knowledge in system troubleshooting, operating system configuration, and IT support, bringing a well-rounded technical background. Passionate about learning, adapting to new technologies, and growing into a versatile software developer.

EDUCATION

PRESIDENCY UNIVERSITY

COMPUTER SCIENCE AND ENGINEERING -CGPA – 8.21

Sep 2022 – July 2025

Banglore, Karnataka

MOTICHAND LENGADE BHARATESH POLYTECHNIC

DIPLOMA (COMPUTER SCIENCE AND ENGINEERING) - Percentage – 79%

Jun 2019 – Apr 2022

Belagavi, Karnataka

TECHNICAL SKILLS

- **Programming & Databases:** Java, HTML, CSS, JavaScript, SQL, Python.
- **Concepts & Frameworks:** DBMS, OOP, Machine Learning Basics
- **Operating Systems:** Windows 7/8/10/11, Linux (basic)
- **Hardware:** PC assembly, hardware upgrades, component installation, Printer/Scanner setup, Peripheral configuration
- **Networking:** TCP/IP basics, LAN/WAN troubleshooting, VPN setup
- **Tools & Utilities:** Remote Desktop, TeamViewer, AnyDesk
- **Productivity Tools:** Microsoft Office Suite, Google Workspace

INTERNSHIP/PROJECTS

Currency Detection System Using ML

- Provided technical assistance to team members, resolving system and software issues during development.
- Installed and configured project-related tools, ensuring compatibility and stability.
- Developed and maintained front-end components using HTML, CSS, and JavaScript.

AI-Driven Stock Analysis Dashboard

- Built a web-based dashboard for real-time stock analysis and prediction using Gemini AI and machine learning.
- Technologies: Python, Gemini API, Yahoo Finance API, HTML, CSS, JavaScript.

Intern (Web Application Developer) Infynow Software Solutions LLP / India, Belagavi

- Collaborated with developers to deliver project components on time, completing assigned tasks accurately and within deadlines.
- Developed frontend elements using HTML, CSS, and JavaScript, including a landing page for the project

ADDITIONAL IT SUPPORT EXPERIENCE

- Built and configured custom desktop PCs according to user requirements, ensuring optimal performance and compatibility.
- Installed and configured operating systems, drivers, and essential software packages.
- Recommended hardware specifications based on budget, performance needs, and future upgradability.
- Performed troubleshooting for faulty components and replaced defective parts when necessary.

CERTIFICATIONS

- [E-PRAKASH](#)(Computer Fundamentals) – National Board of Computer Education
- [C Programming](#) – Goodluck Computer
- [Introduction to Supervised & Unsupervised Machine Learning](#)-Simplilearn

SOFT SKILLS

- Technical Troubleshooting
- Problem Solving
- Collaboration & Teamwork
- Customer Service Orientation
- Communication Skills
